MXE5 Firmware 1.7.35xx Release Notes

MXE5 firmware 1.7.35xx is compatible and required for SONICUE 1.5.0

It works for all versions of MXE5 incl. MXE5-64.

Projects created with previous SONICUE version using the fixed DSP configuration and the basic system logic are compatible with this update.

Since version 1.0.2561 MXE5 supports Dante Domain Manager and OMNEO secure network modes.

1.7.35xx is not backwards compatible to SONICUE version below 1.5.0.

Firmware Update via OMNEO Firmware Upload Tool

The OMNEO firmware upload tool is a separate app and not part of SONICUE. The latest OMNEO Firmware Upload Tool (FWUT) can be downloaded here.

1. Install the OMNEO FWUT

2. Execute the device firmware .msi (e.g. MXE5…msi) – this will install the device's firmware package to the FWUT

3. Connect the device (e.g. MXE5) to your PC/ network and start the app, the device will be displayed

4. Select the device and then firmware version you want to upload

5. Click start

6. Wait until the green bar is all on the right side and State shows: Finished

Note: don't run multiple instances of the SONICUE Firmware Upload Tool and make sure only one network interface is active on your PC.
